Luka Zoem HW#5

1) Answ. 3

~~ⱻ~~ $\forall_x H(x)$ ~~ⱻ~~ (3)

~~$\forall_x (H(x))$~~ ⇒ there is a Hungry bear

$\exists_x H(x)$

(1) diff meaning
(2) opp. direction
(4) comp with orig statement
(5) False.

1) $\forall x\ (P(x) \to (C(x) \land L(x)))$

⇓ neg

$\exists x (P(x) \to (C(x)' \lor L(x)'))$

(there exist planet) that is either (not cold) or (not lifelsy)

1) too strong
2) Not what we need only $C(x)' + L(x)$
3) wrong structure
4) And instead of OR
5) true.

Answer: 5
